Glossary

AE, adverse event/effect
ASCO, American Society of Clinical Oncology
atezo, atezolizumab
b/c, because
bev, bevacizumab
BID, twice daily
BP, blood pressure
CCC, clear-cell carcinoma
Chemo, chemotherapy
CR, clinical response
CS, corticosteroid
CTLA-4 cytotoxic T-lymphocyte-associated antigen 4
DCR, disease control rate
dMMR, mismatch repair deficient
DOR, duration of response
durva, durvalumab
diff, differentiated
EC, endometrial cancer
Est, estimated
FISH, fluorescence in situ hybridization
gyn/onc, gynecologist/oncologist
HER2, human epidermal growth factor receptor 2
ICI(s), immune checkpoint inhibitor(s)
IHC, immunohistochemical
irAEs, immune-related adverse events
IV, intravenous
laro, larotrectinib
lenva, lenvatinib
LS, Lynch syndrome
MHC, major histocompatibility complex
MOA, mechanism of action
MSI, microsatellite instability
MSI-H, microsatellite instability high
MSS, microsatellite stable
mut/Mb, mutations per megabase
NCCN, National Comprehensive Cancer Network
NGS, next-generation sequencing
nivo, nivolumab
ola, olaparib
ORR, objective or overall response rate
OS, overall survival
PARP, poly(ADP-ribose) polymerase
PBO, placebo
PD-1, programmed death cell protein 1
PD-L1, programmed death cell protein ligand 1
pembro, pembrolizumab
PFS, progression-free survival

Ph, phase
POLE, polymerase ε (epsilon)
Pos, positive
PR, partial response
Q3W, every 3 weeks (ie, every 21 days)
QD, once daily
SCNA, somatic copy number aberrations
SD, stable disease
SEC, serous endometrial carcinoma
SOC, standard of care
TAAS, tumor-associated antigens
TCGA, The Cancer Atlas Program
TCR, T-cell receptor
TCS, topical corticosteroids
TILs, tumor-infiltrating lymphocytes
TMB, tumor mutational burden
TME, tumor microenvironment
TRAEs, treatment-related adverse events
Tx, treatment
VEGF, vascular endothelial growth factor
w/, with
w/o, without

Drugs: Generic (Trade) Names

atezolizumab (Tecentriq)
avelumab (Bavencio)
axitinib (Inlyta)
bevacizumab (Avastin)
carboplatin (Paraplatin)
durvalumab (Imfinzi)
larotectinib (Vitrakvi)
lenvatinib (Lenvima)
nivolumab (Opdivo)
Olaparib (Lynparza)
paclitaxel (Taxol)
pembrolizumab (Keytruda)
rucaparib (Rubraca)
talazoparib (Talzenna)
